The Effective Teaching Institute is a multi-day, intensive, hands-on course, that covers the most critical skills a teacher must possess in order to effectively teach in today's K-12 classrooms.

From the moment students walk into the classroom we will DEVELOP every academic and non-academic procedure, show how to TEACH the procedure, and demonstrate how to POSITIVELY reinforce students. We will break it down to the steps necessary for teacher and student success: how to START every lesson, how to CHECK for understanding, how to ENGAGE every student, when to REDIRECT, and how to issue CONSEQUENCES.

The components of the program include:

- Engaging and motivating students
- Developing an Effective Classroom Management Plan
 - Classroom procedures
 - Positive reinforcement
 - Redirecting techniques
 - Rules
 - Consequences
- Working with Challenging Students
